## **DETAILED ACTION**

### ***Election/Restrictions***

1. Newly submitted claims 28-51 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The new claims recite limitations to a method of controlling.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 28-51 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-24 and 27 are rejected under 35 U.S.C. 102(b) as being anticipated by Miki et al (US 2002/0165064).

Miki et al disclose pressure lowering means (93) for lowering said pressure by a preset value; and pressure setting means (92) for setting said pressure to a value obtained by adding a pressure corresponding to the road surface input to a lowered minimum value of said pressure (col. 17 lines 7-39), in case the slip between said transmission members is not detected in spite of lowering said pressure by a preset value said pressure lowering means (col. 1 lines 45-65).

***Response to Arguments***

4. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a), will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
